

Greetings Delta Family Center Families and Friends!

I wanted to just write a quick note to tell you all thank you! I am so fortunate to be part of a community that cares so deeply for the children. Delta Family Center misses our little ones and the families walking through our doors greatly during the time. I understand how overwhelming this COVID-19 may feel not only in your personal homes but in your professional ones as well.

Our staff is working diligently this week to create packets for each of your children to help them be creative and playing hard during their absence from school and various programs. Our hope is that it will help you as parents to feel more prepared and comfortable with your time at home. Delta Family Center staff will be reaching out to each of you to make sure of your needs and comfort during this time. BELA Preschool teachers are also working hard to have virtual mini lessons so that your preschool aged children can see their teachers and familiar faces while joining them online for some fun!

Parents this is a time that we can all look forward to a few quiet moments with our families. Allow your children to snuggle up and tell you a story or play a game of go-fish! Enjoy your time!! Thank you for allowing Delta Family Center to be a part of your world.
