

**DELTA COUNTY JOINT SCHOOL DISTRICT #50**  
**EXTRA DUTY SCHEDULE**

Extra duty stipends are awarded for significant work supervising student activities outside the contractual school day. Extra duty stipends are adjusted if the activity is scheduled, and takes place, during class time.

The extra duty stipend is computed by applying the percentage for the activity (indicated below) to the step on the B.A. column #1 of the basic salary schedule which is appropriate for the number of years experience in the district or transferred into the district. Education level does not apply to the extra duty schedule.

The appropriate step is determined by the following guidelines:

1. Credit is given for the number of years experience in teaching, not just coaching.
2. Individuals may be granted up to four (4) years of previous teaching experience, and one-half credit for each year beyond four years, not to exceed a total of ten years.
3. Initial placement, within these guidelines, is at the discretion of the administration.
4. The extra duty compensation does not apply beyond Step 15 in the B.A. column #1 of the salary schedule.

Extra duty agreements are computed only during the contract year. These figures will be computed from the current Salary Schedule and remain in effect for the contracted period. Only appropriate assignments in each school will be made.

**MIDDLE SCHOOL:**

**Coaching Assignments  
(Includes Head Coach & Assistant Coaches)**
