Dear Delta County School District Community,

Each year, school districts in Colorado are required to report school performance to the community, as required by No Child Left Behind. Because this required information is available on the Colorado Department of Education's website, districts are no longer required to produce an individual annual report to the public.

Instructions on accessing school and district performance are available below. If you do not have access to the internet or would prefer to receive a hard copy of this information from the district, contact Connie Vincent at 874-4438 or by mail at 7655 2075 Road, Delta, CO 81416. A paper version will be mailed to you or be available for pickup.

Access School/District Performance Information

- Visit the SchoolView Data Center at <http://www.cde.state.co.us/schoolview>. Schools districts are listed on the right side of the page in alphabetical order.
- Click the arrow below the district name to display schools in a district. Tabs across the top of the page assist users in navigating through the different data sets.
 - The Performance tab contains state test (TCAP) results by grade, school, district and the state.
 - The Accountability tab contains School and District Performance Frameworks (SPF/DPF), federal data requirements (Title I annual Measureable Objectives and Title III Annual Measureable Achievement Objectives).
 - The Staff tab contains the number of highly qualified teachers in a school or district, as well as teacher equity, which ensures that poor and minority students are not taught by inexperienced, unqualified, or out-of-field teachers at higher rates than their white or more affluent peers.

This information is also posted on the district's Website: www.deltaschools.com.
