September 9, 2020

Good Afternoon Online Learning Program Families,

We're writing to share an Online Learning Program status update for our 6th-12th grade families. We are still anticipating a September 15th start date for the Online Learning Program. Our 6th-12th grade provider, Edgenuity, is working on the provisioning of our program. The provisioning process includes creating student accounts and student course schedules. As long as the provisioning process is complete by September 15th, our 6th-12th grade students will be able to start their Online classes. As you can imagine, Online Learning providers have been swamped with student registrations this fall, so they are working as quickly as possible to meet each school district's demand.

As a reminder, most of our secondary students will be taking five online courses. These courses include a Language Arts, Math, Social Studies, Science, and one elective course. To prepare for the start of your students' classes, you may have already worked with your school counselor to request your elective course. If you have not already selected your elective course, please review the attached course catalog, select an elective, and email that request to our Online Learning Program Coordinator at rebecca.gober@deltaschools.com. We will verify the elective choice with the school counselor to ensure that the course continues to meet Delta County School District graduation requirements.

As soon as we have finalized student accounts and schedules with Edgenuity, we will send that information to students and families. As mentioned earlier we anticipate having that information available by September 15th, however if the schedule changes we'll let you know as soon as possible.

Thank you for your continued patience and support as we develop what we expect to be a robust learning experience in partnership with Edgenuity.

SAM COX

Director of Instructional Services
Delta County School District

Caring, Challenging, Learning....Every Student, Every Day!
