

Correspondence Received by the School Board

The School Board welcomes all correspondence, both written and electronic, and encourages authors to sign correspondence in order that it be best considered by the Board. A copy of all correspondence, both written and electronic, received by the Board, during a period designated preceding each regular public meeting will be made available to each Board member in advance of said meeting. All signed correspondence will be listed in the Board Correspondence section of the meeting agenda, except for correspondence concerning matters that the Board President determines must be considered by the Board in Executive Session. The agenda listing will state the date of such signed correspondence, the author(s), and a brief description of the subject(s) addressed. The Board President will read the listing of correspondence, if any, during the Board Correspondence section of the meeting and provide an opportunity for discussion and/or recommended action concerning the subject(s) of any correspondence by the members of the Board.

Delta County School District 50J
